

**ESUR (European Society of Urogenital Radiology)
Membership terms and conditions (2017)**

Society bylaws

With each membership application and membership renewal, the ESUR bylaws are considered accepted.

Membership requirements

The ESUR lends itself as a forum for interaction and stimulation in the field of urogenital radiology. Membership will be restricted to physicians and other scientists who are involved in practice, teaching or research in urogenital radiology.

Membership application and renewal

Membership shall be open to all natural and legal persons playing an active role in research, education, development or patient care in the field of urogenital radiology. Members of all categories shall be accepted and confirmed by the board. Membership shall be conferred upon confirmation. Membership may be refused without providing reasons.

Checking status

ESUR reserves the right to check your status in a national urogenital radiological society/working group.
