

The background of the poster is a stylized, abstract illustration. It features a woman's face in profile, rendered in shades of red, pink, and purple. The face is composed of large, flowing shapes. In the lower left, the Colosseum in Rome is depicted in a similar color palette, appearing as if it's part of the woman's profile. The overall style is modern and artistic.

COURSE**

2ND EDITION | ROME, ITALY | 11 - 13 APRIL 2025

Welcome

Dear Esteemed Colleagues and Friends

It's a great pleasure to extend a warm invitation to the 2nd ESUR Female Pelvis Imaging Course, scheduled from April 11 to 13, 2025 in the beautiful and historic city of Rome. We are delighted to have you join us for this exciting event, dedicated to expanding knowledge and expertise in the specialized field of female imaging.

The course will be held over three days: the first two days will focus on benign and malignant gynecological pathologies, while the third day will be dedicated to pelvic floor imaging. During these sessions, you will have the opportunity to learn from renowned experts in the field, participate in engaging discussions, and explore the latest advancements in imaging techniques that are specifically designed to improve women's health. We are confident that the insights and skills you will gain from this course will be invaluable in enhancing your clinical practice and improving patient outcomes.

We have carefully structured the program to include concise, focused lectures in the mornings, while dedicating ample time in the afternoon sessions for hands-on workshops and interactive learning. This format will allow for a deeper exploration of practical applications and will provide opportunities to collaborate and share ideas with your peers.

Thank you for being part of this unique learning experience. We truly hope you'll find the course both educational and enjoyable, and we look forward to your active participation.

Once again, welcome to Rome and to the Female Pelvic Imaging Course.

We wish you a productive and memorable stay.
Warmest Regards
